MT S W Demonstrationw TinaJeff August17 2011.xlsx

Jeff,

Attached is the latest version of the spreadsheet. A few thoughts/ suggestions.

There are still a few towns (highlighted in yellow) with missing MHI info or sewer rates. Let me know if you need help filling those in.

In terms of the lagoon category, feel free to add more towns. I just think it's going to be easy to show that the costs exceed the 2%MHI values, from the examples we currently have.

In terms of the proposed variance limits (spreadsheets 3 & 4), I tried to use the column right beside the town name to summarize the status of the variance limits. I highlighted the ones that I had "completed" in orange. If you have time to fill in more before we meet on Monday, great. If not, we can focus on these sheets for our Monday conversation.

I tried to clean up the spreadsheet a little. However, ideally before the sheets are finalized, it would be nice to make sure the cities are organized in the same sequence for all worksheets. That isn't currently the case and I was too lazy to mess with it this week. I also didn't want to mess up the calculations.

That's all I have for now. See you Monday.

Tina

Tina:

Did you have an updated spreadsheet for me?
